25.0 Profil Connectors

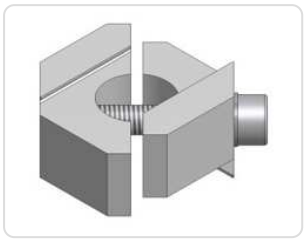

Mit den Profilverbindern hat man unterschiedliche Möglichkeiten Profile miteinander zu verbinden.

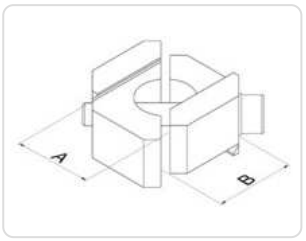

- 90 Grad
- Verstellbar 0-90 Grad
- Verstellbar 0-180 Grad
- Verbinder mit 1 Schraube oder mehrere Schrauben
- Kleinste Klemmfläche ca. 12mm - größte Klemmfläche 250mm

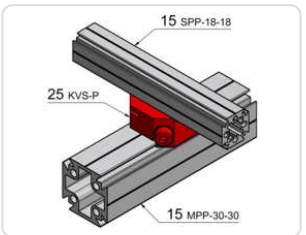

Beim PreciGrip System werden Profilverbinder auch zum integrieren von Aktoren wie z.B. Greifarmen, Greifzangen und Greiffingern verwendet, da diese auch über ein Prisma verfügen.
