GRIPPER FINGER ROUND

GFI-35-WE Gripper Finger 35° Angle Easy

ADVANTAGES

- V1 - very short design
- V2 - favourable gripper finger
- V3 - various mounting options
- V4 - Marking aid every 10 mm on the shaft for
- easy adjustment

REMARK

- Operating principle: single-acting
- - Extension thread for extension tube VLR
- - Query option
- Operating pressure: use 6 bar filtered and dried
- air

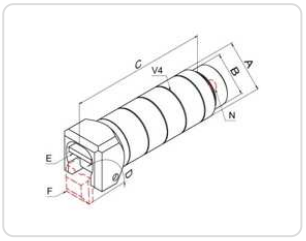

DESIGNATION	ITEM NO.	A	B	C	M	N	WEIGHT
GFI-20-35-WE	1-65-02-14-00-GFI	20	M17×1	55	45N	M5	0.048Kg
GFI-30-35-WE	1-65-04-14-00-GFI	30	M27×1	74	130N	G1/8	0.144Kg

Legend: E = Basic finger position F = Finger extended G = maximum opening angle M = gripping force (at 6 bar) Gripping force 10N = 1kg N = Air connection

GRIPPER FINGER ROUND

GFI-90-E Gripper Finger 90° Easy

ADVANTAGES

- V1 - very short design
- V2 - favourable gripper finger
- V3 - various mounting options
- V4 - Marking aid every 10 mm on the shaft for
- easy adjustment

REMARK

- Operating principle: Single-acting
- - Extension thread for extension tube VLR
- - Query option as an option
- Operating pressure: 6 bar filtered and dried
- air
