92.0 Vacuum Generators

MVE-I Modular Vacuum Unit Inline

ADVANTAGES

- V1 - low weight
- V2 - Optimised performance
- V3 - quick plug-in connection

REMARK

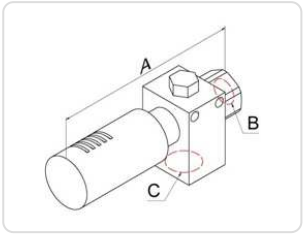

- Nozzle: 0.7mm
- Air consumption: 18.5 l/min
- Suction capacity: 13.7 l/min
- Compressed air 5bar

DESIGNATION	ITEM NO.	A	B	WEIGHT
MVE-I-07	1-90-00-10-36-MVE	PSC4	PSC4	0.034Kg

Legend: A = Compressed air B = Vacuum

MVE-E-1 Modular Vacuum Unit Easy

The modular vacuum generator is a compact, modular vacuum generator designed for use in the PreciGrip gripper system. It is suitable for decentralised vacuum generation directly at the gripper and ensures a reliable supply of vacuum to suction grippers in automated handling processes. Thanks to its simple integration and robust design, it is ideally suited to space-saving and efficient applications.

ADVANTAGES

- V1 - no clogging
- V2 - high mechanical resistance
- V3 - good mounting options
- V4 - quiet operation
- V5 - compact and lightweight
- V6 - direct connection to suction cup

REMARK

- Nozzle: 1.0mm
- Air consumption: 44 l/min
- Suction capacity: 27 l/min
