97.0 Electronic

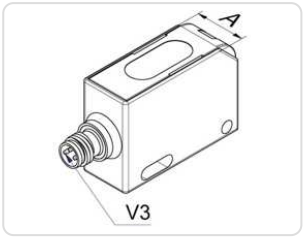

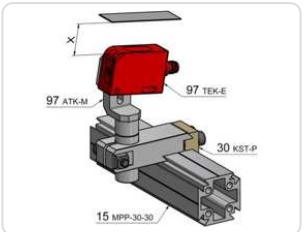

Electronic components that optimally complement your gripper:

SENSOR

TEK-E Part Control easy

ADVANTAGES

- V1 - long range with small design
- V2 - Sensitivity adjustable
- V3 - with 3-pin plug
- V4 - inexpensive variant for simple queries

REMARK

- For shiny objects to be scanned,
- the part inspection must always be arranged parallel to the workpiece

INFO

- Description:
- - Switching distance 0mm - 600mm
- - M8 3-pin plug
- - PNP switching output
- - Ambient temperatures from -25°C to +60°C
- - 2x through hole for M3

DESIGNATION	ITEM NO.	A	WEIGHT	X
TEK-15-E	1-97-00-04-00-TEK	15	0.019Kg	30

Legend: X = Minimum distance (in mm) when checking workpieces with a shiny surface
