GRIPPER CONSTRUCTION STARTER SETS

GSS-U-P EOAT - Transfer Set Prism

Product Description – Gripper (End of Arm Tooling) Construction Starter Kit Our GRPPER construction starter kit is the ideal entry-level solution for quickly and easily building customized gripper systems. It contains a carefully selected range of high-quality components from the AGS Gripper Modular System (EOAT) – perfectly coordinated for maximum flexibility and efficiency. Whether for simple or complex handling tasks: With the GRIPPER construction starter kit, you lay the foundation for customized gripper solutions and benefit from fast assembly, high stability, and modular expansion. Highlights: - Comprehensive basic equipment for Gripper (EOAT) construction - Compatible with the AGS gripper modular system - Modular expandability and versatility - Ideal for quickly starting automation projects

ADVANTAGES

- V1 - All components are available
- V2 - 4 different sizes

REMARK

- Content can be customised to meet specific requirements
- (for selection, the profile size and clamping diameter must be specified)

DESIGNATION	ITEM NO.	A	B
GSS-U-GGP1-P13-D10	1-99-95-00-60-GSS	P13	10
